

Please see the attached screenshots for referencing how to access the Complimentary Wifi in the convention spaces. Please note the speed of the wifi varies as it is similar to a wifi you would have access to at a coffee shop, we recommend a dedicated wifi for streaming, zoom, and/or presentations.

Encore IT would be able to assist with setting up a dedicated wifi if needed!

STEP 1: Under Wifi Settings on your mobile device select "Caesars Resorts"

STEP 2: The following screen will be prompted, check accept terms and conditions, and select "Connect":
